Happy Holidays!

Pine to Upton

Bear Creek Greenway Foundation Capital Campaign

In 2011 the Bear Creek Greenway proudly announced the completion of 17+ miles of continuous trail. Area residents and visitors can ride or walk on a complete trail between the dog park in Ashland to Pine Street in Central Point and only navigate across one road (Suncrest Road near Talent).

The next project slated for 2013/2014 is a 1.4 mile section of trail between Pine St. and Upton Road in Central Point near the Expo. Currently, a \$1.7 million grant has been secured from the ODOT Transportation Enhancements program! However, the grant requires a matching amount of \$190,000 be raised amongst the local community. **Without this community match the grant and project will be lost.**

The Bear Creek Greenway Foundation has already raised \$60,000 toward this project, but seeks your help for the remaining \$130,000.

Why is it important?

- **A complete trail:** This new section of trail will complete a 20 mile section of trail and bring the Bear Creek Greenway one step closer to the Rogue River Greenway which will eventually connect Ashland all the way to Grants Pass.
- **Safety:** This new section of trail will provide safe access along the Expo and away from dangerous roadways.
- **For Future:** As state and local budgets continue to get cut and regulations increase it is more important now than ever to complete projects for future generations to enjoy.

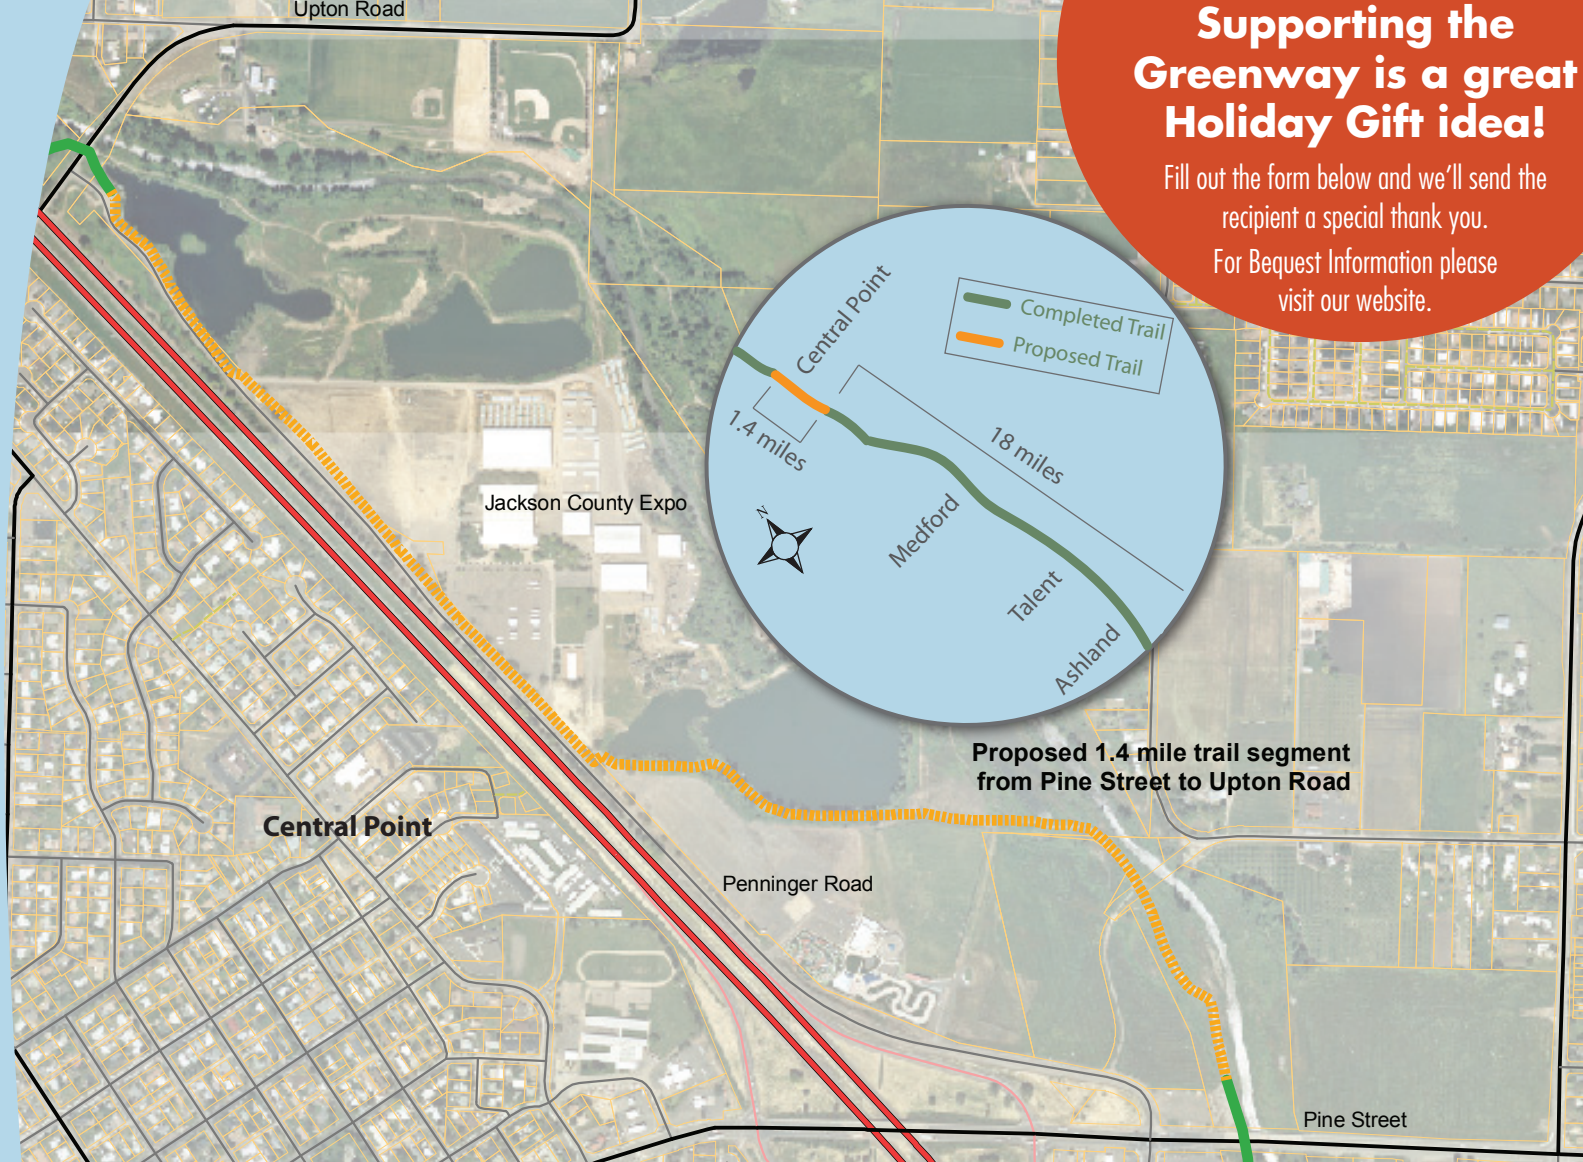

The Greenway is Going Green!

In an effort to cut down on resources we will be sending future newsletters by email. Please sign-up for our online newsletter at bearcreekgreenway.com.
